

CIRCA
S C O O P L E D

DESCRIPTION

The Circa Scoop 22"Ø is a circular fixture with a retro look, yet its four light sources provide a modern twist to the scoop. Providing an art deco Circa 1900 look to the fixtures. The unit comes with a center sphere light source providing a warm glow of Tunable white light. It sits on an octagon pyramid heatsink with 8 clusters of LEDs reflected from its base.

A segmented ring trims its edge divided into eight RGB pixels. White LEDs were placed behind its protective grill to illuminate the hand-finished gold reflective scoop. Whether placed atop a stand, on the floor or rigged, this unique fixture can make any band or performer stand, bringing depth and illuminating the stage as no other light can.

It is also available in three other sizes: Giant 45"Ø, XL 24"Ø, and the XS 10"Ø, which is slightly different in its control.

Features

LEDs

The Circa Scoop LED has 336 RGB, 87 WW, and 45 WW + AMBER.
