

H6

HAZER

DES CRIP TION

The IP rated, wireless H6 Hazer can be used a variety of indoor and outdoor applications including tours, clubs, and special productions. This top of the line haze machine enhances the appearance of beams and lighting fixtures that produce special effects, allowing you to transform any room.

It has the capability to create haze with long hang times and even particle dispersion. At full intensity, the H6 Hazer can quickly fill up a space with haze at 8,000 cubic feet per minute.

Features.

MEGA NECTAR

The H6 Hazer holds up to 1/2 a gallon of haze fluid for long usage time.

IP RATED

With an IP rating of 53 the H6 Hazer is ideal for use in indoor or outdoor venues and events..
